LUNETHANGA!

Uhh... I'm not
sure. I only heard
it myself.

But that portal
doesn't activate unless
you're an Abidone, right?

I thought that
was the only logical
conclusion.

Uhh... May I excuse myself now?

Because of this incident, the library is a mess - so I need to head back to sort things out...

Oh my god!!

That was Prince Reihart
behind him, right??

According to the survivors, the greatest contributor who brought them to safety from the terrorist threat in Viceport was none other than Prince Lechali, who held back the terrorists while the hostages were being rescued.

Prince Lechali will be celebrating his 23rd birthday. His popularity has further increased thanks to his interview with Holan Daily.

According to them, he is 185cm tall, weighing 73kg.

He seems sharp, but
his looks must've made
quite a lot of ladies cry.

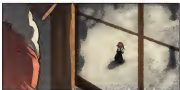

I've never seen someone
who's caught my attention
more than this sword...

Who's this?

I feel a strange
sense of déjà vu...

Incredible

As expected of
a Dragon... huh.

Don't worry,
I'm not
interested.

My
grandmother's
target is the
Empire, simply.

You can't refuse.

How much
was your body
worth again?

Worth? Why do
you ask? It can't
be that you feel
sorry right?

The citizens rescued
were completely unharmed,
while the nobles were released
just by paying a ransom.

I can't believe
I witnessed such a scene
in my lifetime.

Hahahaha

Ma...

The whole population knows you now, being at the center of attention, and you're gaining popularity at the same time.

Not to mention, Strain is out of the picture now.

Congrats

Friend.

I need to head to the station, so I'll excuse myself!

You're going to the capital, right?

I'll go with you.

Something had happened to me, but

I have to proceed onwards with my plans.

Not only that, I need to pay a visit to our glorious king for

his sixth wedding anniversary.

CLANG

CLANG

Did you know
beforehand?

CLANG

Well, I could
make a small error
with the conditions
before you so that
so it must be a
coincidence.

Edwin

Have you heard the
rumor saying the reunion
when you were sent to Dorton
was because the daughters
got in a request for it?

All four families
took a heavy hit from this
since all their expectations
got shaken and their hopes
crushed.

The Kachard's
private bank decided to
help them instead...

Chirp

If everything goes well, the rights to print money...

will definitely go to the banknotes without a doubt.

When that happens, I'll congratulate you.

LONE MANGA!
